

Courses offered at the undergraduate level (2024-2025)

Courses in the undergraduate programme are grouped into 12 thematic areas. Students should select all courses marked with an asterisk (required courses), as well as a specific number of other courses from each thematic area (electives). These restrictions do not apply to Erasmus+ visiting students. Courses that are marked with a ♦ are available in English. English-language support for Erasmus students is also available in other courses, following consultation with the teaching staff. Not all courses are always available: Courses that are offered in the Winter Semester are marked **W**, and courses that are offered in the Spring Semester are marked **S**. Before selecting any course, prospective students must contact the tutor(s).
